SUMMARY

Motivated and detail-oriented Computer Science graduate with strong foundational knowledge in programming, software development, and problem-solving. Proficient in languages such as Python, Java, and JavaScript, with hands-on experience in building small-scale web and desktop applications. Passionate about coding and eager to apply technical skills in real-world development projects. A quick learner and collaborative team player, seeking an entry-level role in software development, web development, or any IT coding domain to grow professionally and contribute meaningfully to innovative projects.
